

REMARKS

Claims 2-3 and 7 have been cancelled.

The drawings are objected to by the Examiner, as cited in the office action. Reference number 46 was removed from paragraph 15 to overcome the drawing objection.

Claim 14 have been amended to overcome the Examiner's objections.

In a telephone interview, it was agreed that the Zizak patent did not teach or suggest structure of Claim 3 to receive extensions tubes from a vacuum. Later the Examiner confirm that there were no other references that had such structure.

Therefore, claims 2 and 3 were incorporated into amended claim 1 to overcome the Examiner's rejections.

In a telephone interview, it was agreed that there were no references that taught or suggested structure of Claim 19 as amended to include the handle and prongs and vacuum attachment point for hand turning of the digger while sucking up dirt.

In view of the aforementioned remarks and amendments, it is believed that claims 1-19 are in condition for allowance and allowance of these claims is respectfully requested.

Respectfully submitted,
/John J. Elnitski, Jr./
